KidSummer
Natural History Day Programs
Registration opens February 1, 2020 • Financial aid available

New Half Day Hours
Are 9am – Noon

Program: Terra Nova
Ages 9-10 • 9am – 2pm
Monday – Friday weekly sessions; $310M $330NM
Looking up the Science of Nature!
Students will actively engage in the study of Marine Biology & Cape Cod Ecology. Premium opportunities to explore outdoors, in the 400-acre environment surrounding the Museum & indoors in the Aquarium, exhibits and Butterfly House.

Program: First Encounters
Ages 3 & 4 • 9 am-Noon
5-Day Session M-F $255M; $285NM
This course is designed to develop independence, encourage observation, and offer peer interaction. It will incorporate activities geared to this age level which foster a love of the natural world through adventures and explorations. Children must be toilet trained and have had their third birthday.

Program: Eco Explorers
Ages 5-6 • 9 am-Noon
5-Day Session M-F $255M; $285NM
An opportunity to develop a child's science skills through games, stories, creative projects, experiments and lots of outdoor exploration. Each week is diverse enough to engage the child who comes multiple weeks or the entire summer!

Program: Nature Sleuths
Ages 5-6 • 9 am-Noon
5-Day Session M-F $255M; $285NM
An opportunity to develop a child's science skills through games, stories, creative projects, experiments and lots of outdoor exploration. Each week is diverse enough to engage the child who comes multiple weeks or the entire summer!

Program: Junior Naturalist
Ages 7-12 • 9 am-Noon, M-F • Available Weeks TBD
5-Day Session  M-F $255M; $285NM
Limited to 8 students/week. This program is designed as part classroom, part practicum experience for middle school students, that counts as volunteer hours for school/community requirements. With a focus on science & biomimicry, students will use the Museum as a living classroom for science research opportunities, authentic aquarium activities, bird identification and guest services. The participants will care for the Mothapalooza Kiosk critters and provide information for the visitors. Hiking, teaching and special Museum events make up each week. The ideal participant has a high interest in extending his or her natural science knowledge and sharing their enthusiasm of the natural world with Museum visitors and younger KidSummer students.

Program: Extreme Science
Ages 7-12 • 9am – 2pm
Monday – Friday weekly sessions; $350M $380NM
Serious science students will participate in a variety of interactive activities, inside and outdoors, incorporating biology, physiology, chemistry, physics and ecology. Live animal tank care, daily hikes, experiments, research and paddleboarding provide the basis for in depth exploration of nature and science.

Program: Birding 101
Ages 7-12 • 9am-Noon, M-F • Available Weeks TBD
$260M; $290NM (includes binoculars & nest boxes) Limited to 10 students/week.
Learn to identify native species of birds in their natural habitats surrounding the Museum. Introduction to skills & tools of birding, including naturalist guided walks, use of binoculars and field guides, care of nest boxes and conservation discussions.

Program: KidSummer Art
Ages 7-12 • 9am-Noon, M-F • Available Weeks TBD
$260M; $290NM (includes supplies) Limited to 10 students/week.
Discover nature using pencil and paintbrush. Guided by a certified art teacher, students will explore the Museum’s spectacular vistas, abundant animal and plant life. Activities include sketching, painting and sculpting.

Program: Nature Sleuths
Ages 7-12 • 9 am-Noon, M-F • Available Weeks TBD
$260M; $290NM

Discover nature using pencil and paintbrush. Guided by a certified art teacher, students will explore the Museum’s spectacular vistas, abundant animal and plant life. Activities include sketching, painting and sculpting.
and the inter-related web of life, CCMNH taught biodiversity long before it became a widely recognized term. KidSummer programs focus on this important concept in age-appropriate ways, emphasizing biology, physiology, and ecology. Now through biomimicry, children will come away with an understanding of the relationships among plants, animals, insects, birds, and humans.

Our Museum campus is surrounded by a unique outdoor laboratory – 400 acres of conservation land on Cape Cod Bay that encompasses upland woods, salt marsh, barrier dunes, ocean beach, and tidal pools. Three trails wind through these habitats and a native wildflower garden. The programs combine outdoor exploration, STEAM based classroom projects and experiments.

Please complete one application per child. Payment in full must accompany application. Mail completed application with check or credit card number to Cape Cod Museum of Natural History, 869 Main Street, Brewster, MA 02631

Notes:
- Students must be within the age range specified for each program.
- Emergency contact & photography release forms are provided after registration and must be signed & returned before sessions begin.
- Medical forms must be completed and returned to the Museum before a child is allowed to attend.
- CCMNH’s discipline and health policies are distributed at the time of registration.

Register online at CCMNH.org or call 508.896.3867, x128

Fee & Refund Policies:
- Registration will not be processed unless accompanied by full payment.
- $50 of each tuition is a non-refundable administrative fee.
- 50% of remaining tuition will be refunded if cancellation is made at least 5 business days prior to the start of the session.
- Sessions are not pro-rated for missed days.
- Complete refunds will be made if a program is cancelled for insufficient registration.
- The Museum does not offer Individual Education Plans (IEP) for students nor one on one supervision.

By focusing on relationships in nature
